PARTNERSHIPS: Encourage and support the creation of Partnerships by two or more congregations around people's passion and energy within the life of our presbytery, our congregations and the larger church that furthers the cause of Christ in the world.

What is an HRP Partnership?

- A Partnership is where two or more congregations and leaders come together around their passion for a particular issue or ministry work. Ordinarily two or more sessions/councils would officially endorse the purpose and work of a partnership and those sessions request that HRP through its council would recognize the partnership.
- That Partnership (issue/ministry work) "Furthers the cause of Christ in the world".
- The Partnership provides the Council/HRP with a contact person and contact information.
- A Partnership's contact person will be in contact with the Council's Partnership Liaison at least bi-annually.
- A Partnership may have their own website, FB page, Twitter account developed and overseen by the Partnership which affirms and does not diminish [HRP values, as discerned by Council](#).
