FOR INFORMATION

Those of you who are polity nerds or who otherwise want to be on top of denominational rules and procedures should be aware that a new edition (the 12th) of Robert's Rules came out on September 1st. It contains 89 changes to the rules. Some are major changes (i.e. Roberts acknowledges electronic meetings and contains sample rules for such meetings for the first time) and some are clarifications of things in earlier editions. I will make sure that clerks of session are apprised of those that will be most relevant to congregations during the 2021 Clerk of Session Day.
